**Semi Automatic Tablet / Capsule
Counting Machine**

Semi Automatic Tablet / Capsule Counting Machine

Features:

A unique machine to COUNT & FILL tablet / capsules up to 1000's both in polybags and rigid containers in bulk quantity and also where you need medium yeild. A 36" Dia counting disc gives promised capacity of fill. Each disc is custom designed and manufactured to count coated / uncoated tablets, hard or soft gelatin capsules of any type and size such as pearls, oblong and round except caplet shape. One container or polybag can be filled manually at a time through single-track filler with following output @ 6rpm speed see output chart. The rpm varies depending upon the product. Delivery chutes direct the product from the counting disc into telescoping SS filler tubes of various sizes to suit different containers. Integrated with the filler, under the hopper is the vaccume system that provides dust free passage of stocks to the containers.

PHARMA MACHINERIES

Automatic Single Disc Counting Machine

Automatic Single Disc Tablet/Capsule Counting Machine

Designed to precisely count and pack capsules and tablets of any size. More hygienic and easier to count and pack capsules / tablets, thus improving GMP standards. Special Dust Extractor(optional) to remove dust particles which ensures dust-free filling of tablets or capsules into the container. Heavy duty Gear-Box ensures smooth operation.

Operation:

It is very simple to operate the machine which is controlled by a Push Button.

Change Parts:

Change parts required for different sizes of capsules and tablets, can easily be changed from one size to another.

Automatic Double Disc Counting Machine

Automatic Double Disc Tablet/Capsule Counting Machine

Salient Features:-

- *36" Unscrambler with Mechanical vary speed drive to feed the bottles
- Two Independent drive SS 304 conveyor to carry bottles
- 36" diameter Independent drive disc with SS 316 hopper to store and count the products
- 220 V solenoid coil with plunger system to stop the bottles while filling the products micro switches electrically operated to control the solenoid plunger
- *Height alignment mounts to align with existing machine height.
